REELS

Revo MGXtreme 2

NEW

Setting the standard in lightweight, compact design; the MGXtreme low profile baitcaster continues to push the boundaries of low profile design with the lightest Revo® yet weighing in at just 128g. The MGXtreme low profile reel combines the new SLC spool concept, with hybrid ceramic bearings resulting in a reel with first class casting performance in a package that weighs almost nothing in the hand.

- 8 stainless steel HPCR bearings + 1 roller bearing provides increased corrosion protection
- 2 additional CeramiLite Spool Bearings provide improved casting performance
- One piece X-Mag alloy frame provides a super light yet extremely strong frame
- Carbon Matrix drag system provides smooth, consistent drag pressure across the entire drag range
- C6 carbon sideplates provide significant weight reduction without sacrificing strength and durability
- Infinitely Variable Centrifugal Brake (IVCB-4) gives very precise brake adjustments allowing anglers to easily cast a wide variety of baits
- Infini II spool design for extended castability and extreme loads
- Compact bent carbon handle provides a more ergonomic design that is extremely lightweight
- Round cork knobs provides improved grip for improved cranking power
- Aircraft grade aluminum main gear provides weight reduction without sacrificing durability

Revo MGX 2

After years of defining lightweight performance and forward-thinking design, the Revo® MGX® low profile baitcast reel sets the standard again in compact, lightweight performance. The IVCB-4 braking system allows almost limitless adjustments in casting control while the ground-breaking one piece X-Mag alloy frame along with C6 carbon side plates delivers significant weight reduction without sacrificing strength and durability.

- 9 stainless steel HPCR bearings + 1 roller bearing provides increased corrosion protection
- One piece X-Mag alloy frame provides a super light yet extremely strong frame
- Carbon Matrix drag system provides smooth, consistent drag pressure across the entire drag range
- C6 carbon sideplates provide significant weight reduction without sacrificing strength and durability
- Infinitely Variable Centrifugal Brake (IVCB-4) gives very precise brake adjustments allowing anglers to easily cast a wide variety of baits
- Infini II spool design for extended castability and extreme loads
- Compact bent carbon handle provides a more ergonomic design that is extremely lightweight
- Flat EVA knobs provide greater comfort and durability
- Aircraft grade aluminum main gear provides weight reduction without sacrificing durability
- Ti coated line guide reduces friction and improves durability

Revo ALX

NEW

Engineered to give anglers the compact performance of the MGX along with the versatility of a heavy-duty fishing reel, the Revo® ALX low profile reel features an aluminum frame for added strength while the C6 carbon side plates and aluminum main gear allow for maximum weight optimization. Easily adjustable and ultra compact, the ALX is suited to throw baits from lightweight finesse baits all the way through to heavy jigs.

- 8 stainless steel HPCR bearings + 1 roller bearing provides increased corrosion protection
- X-Craft alloy frame for increased corrosion resistance
- Carbon Matrix drag system provides smooth, consistent drag pressure across the entire drag range
- Infini II spool design for extended castability and extreme loads
- MagTrax brake system gives consistent brake pressure throughout the cast
- Compact bent handle and star provides a more ergonomic design
- Flat EVA knobs provide greater comfort and durability
- Aircraft grade aluminum main gear provides weight reduction without sacrificing durability
- Ti coated line guide reduces friction and improves durability
- Recessed reel foot allows for a more ergonomic reel design

Revo Rocket Casting

You have never experienced speed like this before. An impressive 93 centimeters of line retrieve per turn of the crank handle makes the new Rocket the fastest low profile in the Revo lineup. Whether you are walking-the-dog with topwater lures or burning up spinnerbaits, buzzbaits or crankbaits, the Revo Rocket delivers the ultimate package for techniques requiring a quick retrieve.

- 10 stainless steel HPCR™ bearings + 1 roller bearing provides increased corrosion protection
- Rocket gear ratio provides superfast line retrieve for picking up line quickly
- X-Cräftic alloy frame and sideplates for increased corrosion resistance
- Carbon Matrix™ drag system provides smooth, consistent drag pressure across the entire drag range
- D2 Gear Design™ provides a more efficient gear system while improving gear durability
- Infini™ brake system allows almost limitless adjustability to handle any fishing situation
- Infini II™ spool design for extended castability and extreme loads

Revo Toro Beast

Engineered for brute strength and unrelenting performance, the Revo Toro® Beast delivers a unique platform designed for hard pulling species. Superior cranking power and high line capacities give anglers the upper hand on a variety of fresh and saltwater fish. Also Includes Power Handle and Casting Power Handle.

- 7 stainless steel HPCR™ bearings + 1 roller bearing provides increased corrosion protection
- Power stack Carbon Matrix Drag System™ provides extreme drag pressures combined with unparalleled smoothness
- Active response drag mechanism allows easy drag adjustment even under heavy drag loads
- Aircraft grade aluminum spool allows for a high strength spool that is extremely lightweight for greater casting performance
- X-Craftic alloy frame and sideplate for increased corrosion resistance
- Duragear™ Heavy Duty provides increased fighting power and extended gear life
- InfiniMax Breaking System™ allows almost limitless adjustability to handle larger baits
- Extended bent handle for increased cranking power
- Large EVA knobs provide improved grip
- Ti coated line guide reduces friction and improves durability

Revo Toro S

Built for reliability and performance, the Revo Toro® S has been constructed to handle a wide variety of fresh or saltwater conditions. The new ergonomic design delivers greater line capacity, high max drag and the ability to fish larger baits. A heavy duty gear system coupled with features like a counterbalanced power handle and a robust, externally adjustable magnetic casting brake make this reel the perfect choice for hard fighting species.

- 4 stainless steel HPCR™ bearings + 1 roller bearing provides increased corrosion protection
- Power stack Carbon Matrix Drag System™ provides extreme drag pressures combined with unparalleled smoothness
- Aircraft grade aluminum spool allows for a high strength spool that is extremely lightweight for greater casting performance
- X-Cräfte alloy frame and sideplate for increased corrosion resistance
- Duragear™ Heavy Duty provides increased fighting power and extended gear life
- MagTrax™ brake system gives consistent brake pressure throughout the cast
- Casting Power Handle For greater cranking power (60 size)
- Extended bent handle for increased cranking power (50 size)

Revo Beast

The Revo® Beast raises the bar when it comes to high performance and durability in a low profile design. Engineered for strength from the ground up, the Beast features titanium coated sideplates, 7 stainless steel HPCR bearings + 1 roller bearing as well as an X-Craft alloy frame for increased durability and corrosion resistance. A max drag rating of 22lbs along with the dependable Duragear brass main gear and the tried-and-true Carbon Matrix drag deliver impressive power and durability in a surprisingly compact package.

Get the upper hand on hard fighting fish with the extended bent handle and round EVA power knob. The Infini casting brake incorporates the use of both an internal centrifugal brake as well as an externally adjustable magnetic brake to give anglers almost limitless adjustability.

- X-Craft alloy frame and sideplates for increased corrosion resistance
- 7 stainless steel HPCR™ bearings + 1 roller bearing provides increased corrosion protection
- Titanium coated sideplates provide increased scratch resistance
- Extended bent handle for increased cranking power_Round EVA knob provides improved grip for improved cranking power
- Carbon Matrix™ drag system provides smooth, consistent drag pressure across the entire drag range
- Duragear™ brass gear for extended gear life_Infini™ brake system allows almost limitless adjustability to handle any fishing situation
- Ti coated line guide reduces friction and improves durability_Infini II™ spool design for extended castability and extreme loads
- D2 Gear Design™ provides a more efficient gear system while improving gear durability
- Corrosion resistant instant anti reverse bearing provides greater protection

Ambassadeur Pro Rocket CSB

NEW

A continued tradition of Swedish craftsmanship and design, Ambassadeur® Black edition round baitcast reel is now available in additional sizes. Featuring a six pin centrifugal braking system and a robust aluminum construction, the international best seller delivers superior casting performance and rock-solid durability.

- 4 stainless steel ball bearings + 1 roller bearing provides smooth operation
- Caron Matrix drag system gives smooth drag performance
- 6 pin centrifugal brake gives consistent brake pressure throughout the cast
- Synchronized level wind system improves line lay and castability
- Extended bent handle for increased cranking power

Ambassadeur S LC

NEW

Value-packed power and performance. The Ambassadeur® S Line-Counter round reel gets the job done day after day with 2 stainless steel ball bearings that provide smooth operation. 11 pounds of drag pressure and a lighted digital line-counter provide accuracy and power for a variety of situations. The addition of a bent handle and drag star translates into a more ergonomic feel for all day comfort.

- Lighted digital line-counter provides greater accuracy with line diameter adjustability
- 2 stainless steel ball bearings provides smooth operation
- Power Disk drag system gives smooth drag performance
- Compact bent handle and star provide a more ergonomic design
- 4 pin centrifugal brake gives consistent brake pressure throughout the cast
- Synchronized level wind system improves line lay and castability

Ambassadeur Linecounter

Why use a line Counter reel A question often asked by many anglers. The Ambassadeur Line Counter's main use is its ability to find fish at different levels when boat fishing. Instead of the angler having to count the number of turns up or down to the bite zone, the Line Counter does this automatically with the read out display that is found on the left-hand side plate.

Revo MGX Spin

Lightweight, compact design built for the discerning angler. The MGX legacy continues with the addition of the MGX spinning platform. When only the best will do, look no further than the Revo® MGX spinning platform.

Flat EVA knob provide greater comfort and durability, Slow Oscillation provides even line lay with all types of line, Everlast bail system for improved durability.

Machined aluminum braid ready spool allows braid to be tied directly to the spool without any slip, Aircraft grade aluminum main shaft, K-Clutch anti reverse, Includes spare spool

- 11 stainless steel HPCR™ bearings + 1 roller bearing provides increased corrosion protection
- AMGearing™ system provides precision machined gears for unparalleled smoothness and durability
- Computer optimized (COG™) gear design allows for the most efficient gear system
- Carbon Matrix™ drag system provides smooth, consistent drag pressure across the entire drag range
- One piece X-Mag™ alloy one piece gear box provides a super light yet extremely strong gear housing
- C6 carbon body provides significant weight reduction without sacrificing strength and durability
- C6 carbon rotor provides significant weight reduction without sacrificing strength or durability
- Rocket Line Management System™ provides better control of all types of fishing lines
- Rocket Spool Lip Design™ allows better control of line coming off the spool
- Compact bent carbon handle provides a more ergonomic design that is extremely lightweight

Revo Premier Spin

It starts with our advanced aluminum machined gear system that gives anglers ultra-smooth gear feel and performance. To reduce weight, the Premier uses high-end components including an IM-C6 body design, a C6 integrated rotor, a carbon fiber handle and an EVA knob. Casting efficiency is maximized by the Rocket Line management system that improves casting distance while reducing wind knots.

Slow Oscillation provides even line lay with all types of line, Flat EVA knob provide greater comfort and durability, Everlast™ bail system for improved durability, Aircraft grade aluminum main shaft, Titanium main shaft (40 size only), K-Clutch™ anti reverse.

- 11 stainless steel HPCR™ bearings + 1 roller bearing provides increased corrosion protection
- AMGearing™ system provides precision machined gears for unparalleled smoothness and durability
- Computer optimized (COG™) gear design allows for the most efficient gear system
- Carbon Matrix™ drag system provides smooth, consistent drag pressure across the entire drag range
- IM-C6 (Insert molded C6) body design combines an X-Craftic gearbox design with a C6 carbon body, which gives a lightweight construction that houses gears in perfect alignment
- C6 carbon rotor provides significant weight reduction without sacrificing strength or durability
- Rocket Line Management System™ provides better control of all types of fishing lines
- Compact bent carbon handle provides a more ergonomic design that is extremely lightweight
- Machined aluminum braid ready spool allows braid to be tied directly to the spool without any slip
- Rocket Spool Lip Design™ allows better control of line coming off the spool

- AMGearing™ system provides precision machined gears for unparalleled smoothness and durability
- Computer optimized (COG™) gear design allows for the most efficient gear system
- Carbon Matrix™ hybrid drag system for super smooth reliable drag performance
- IM-C6 (Insert molded C6) body design combines an X-Craftic gearbox design with a C6 carbon body, which gives a lightweight construction that houses gears in perfect alignment
- Rocket Line Management System™ provides better control of all types of fishing lines
- Rocket Spool Lip Design™ allows better control of line coming off the spool
- Flat EVA knob provide greater comfort and durability
- Machined aluminum braid ready spool allows braid to be tied directly to the spool without any slip
- Stainless steel main shaft and components for improved corrosion resistance

Revo Rocket Spin

The Revo ® Rocket spinning reel is designed to offer blazing fast retrieves allowing anglers to pick-up large amounts of line very quickly. Perfect for fishing techniques where anglers need to present baits fast, or pick up large amounts of slack line.

- 9 stainless steel HPCR bearings + 1 roller bearing provides increased corrosion protection
- AMGearing system provides precision machined gears for unparalleled smoothness and durability
- Computer optimized gear design allows for the most efficient gear system
- Rocket Gear Ratio provides superfast line retrieve for picking up line quickly
- Rocket line management system provides better control of all types of fishing lines
- Rocket spool lip design allows better control of line coming off the spool
- Carbon Matrix drag system provides smooth, consistent drag pressure across the entire drag range
- C6 carbon rotor provides significant weight reduction without sacrificing strength or durability
- IM-C6 (Insert molded C6) body design combines an X-craftic gearbox design with a C6 carbon body, which gives a lightweight construction that houses gears in perfect alignment
- Compact bent carbon handle provides a more ergonomic design that is extremely lightweight

RODS

Rocksweeper

The Rocksweeper rod family has gained a number of achievements since its introduction. It's tough, has the latest spec and yet still an ultra- high sensitivity. The blanks is built on the 3M Powerlux technology system. The evenly distributed nano particles prevents cracks in the blank material while the dense construction dramatically improves the tip and overall break strength. The Rocksweeper rods are equipped with Fuji components for highest possible durability and quality. When only the best will do, the Rocksweeper rod series delivers uncompromising performance.

- Featuring exclusive 3M Powerlux 500 resin technology for ultra-light thin blanks with superior impact and fracture resistance.
- High density EVA gives greater sensitivity and durability
- Fuji® soft touch reel seat for greater comfort
- Fuji® guide system

Fantasista Beast

If you are targeting larger freshwater species like big Pike, the premium Fantasista Beast series of rods is built for precision power and long term durability. Our engineers utilize premium components and technique-specific actions to make this series of rods lightweight, ultra-sensitive and powerful.

- Tetra axial carbon construction provides an increase in strength and durability
- Integrated Ferrule Design (IFD) allows for 2 piece construction with the strength of a one piece blank
- Fuji® Alconite guide system
- Fuji® reel seat for greater comfort

Villain

Superior construction, ultimate sensitivity and first-rate components; the new Villain™ 2.0 series of rods gives serious anglers an edge. It starts with our premium 40 Ton high modulus graphite blanks. For added strength, we utilize our carbon V-wrap™ process that adds a distinctive look while increasing strength. Strong titanium frame micro guides ensure excellent performance and balance. The addition of high quality Fuji® reel seats rounds out the list of pro features on this well refined, lightweight series.

- 40 Ton graphite for a lightweight balanced design and increased sensitivity
- V Wrap™ carbon construction provides an increase in strength and durability
- Fuji® reel seat for greater comfort
- Titanium alloy guides with zirconium inserts allow for a lightweight balanced rod

Veracity Series

Exceptional sensitivity in a lightweight, balanced package.

Lightweight performance engineered for today's serious angler. Constructed from 36 Ton graphite with Nano Technology, the Veracity series of rods delivers the perfect combination of sensitivity and impact resistance. The addition of titanium alloy micro guides promotes a balanced feel and improved sensitivity for all-day comfort and performance.

- 36 Ton graphite with Nano Technology for decreased weight and increased impact resistance.
- Titanium alloy guides with Titanium inserts allow for a super lightweight guide giving the ultimate in rod performance.
- Abu designed extreme exposure reel seat for increased blank contact and sensitivity.
- High density EVA gives greater sensitivity and durability.
- Micro-Guide System delivers a rod that has superior balance and increased sensitivity. The sensitivity yields superior bite detection.

Veritas 2.0

The updated Veritas™ series continues the tradition of lightweight design and superior sensitivity with a renewed focus on strength. By developing a Spiral Core Construction process with our 30 Ton graphite blanks, our engineers were able to significantly improve break strength without increasing weight. Overall break strength improved an average of 22% while tip strength increased by over 30%.

- 30 Ton graphite for a lightweight balanced design
- Spiral Carbon Core Construction provides an increase in break strength of the rod
- Micro click reel seat hood design allows for improved reel fit
- Abu designed extreme exposure reel seat for increased blank contact and sensitivity
- High density EVA gives greater sensitivity and durability
- Texas rigged hook keeper for all bait applications

Volatile Pike Casting

Whether you are targeting species like pike, zander, cod or helibut the same high performance NanoTechnology utilized in the Veritas series is now available in actions perfectly suited for these applications.

Pair the new Volatile with the Revo Inshore low profile, Amassadeur Jerk and spinning reels, or Revo Toro NaCl for the ultimate heavy application.

- 30 ton graphite blank with Nano technology for decreased weight and increased impact resistance
- Stainless steel guides with zirkonium inserts
- Hi density EVA handle design for greater sensitivity and durability
- Fuji ECS (casting)
- Will match the Revo Toro NaCl, Ambassadeur 5601 Jerk and Orre inshore series
- guides : SS Frame / Zirconium Oxide Inserts

Venerate Series

Satisfying the elements of a rod design can be complex, balancing the perfect weight to action, matching the appropriate components to a technique, every detail accounted for to create the optimal performance.

The Venrate is a balance of function and design, ergonomically appealing and performance enhancing.

Combining 24 Ton graphite with the latest components and a new split handle design, the Venerate gives you the best value and performance at an economical price.

- 24 Ton graphite construction for a lightweight and balanced design
- High density EVA handles are more durable and comfortable
- Soft-touch sea guide reel seats for increased comfort
- Zirconium coated guides are perfect for braided line usage
- Texas-rigged hook keeper for all bait applications

Verdict Series

The Verdict series is engineered for anglers looking for the fastest actions with the lightest tips. Constructed from 36 Ton graphite and the highest grade cork handles, this series delivers unparalleled comfort and sensitivity. Suitable for a variety of techniques as well as other finesse applications. Other high end refinements include a carbon locking hood design and stainless steel guides with Zirconium inserts.

- 36 Ton graphite for a lightweight balanced design and increased sensitivity
- Titanium alloy guides with ultra light Zirconium inserts allow for a lightweight balanced rod
- Premium grade cork handles for added comfort

Vendetta Series

The next generation of Vendetta incorporates new IntraCarbon™ Technology to create a layer of multi-directional carbon fibers that provides a lightweight protective barrier on the rod blank without adding weight.

The aggressive design of the Vendetta is only matched by the balanced feel, creating the perfect harmony between rod and reel, thereby allowing for greater sensitivity and control.

- 30 Ton graphite for a lightweight balanced design
- One piece aluminum screw down hood creates a secure connection
- High density EVA gives greater sensitivity and durability
- Texas rigged hook keeper for all bait applications
- Stainless steel guides with Zirconium inserts
- Abu designed extreme exposure reel seat for increased blank contact and sensitivity
- IntraCarbon technology provides a lightweight barrier to improve durability

Venturi Series

The Venturi series of rods delivers on-the-water performance and style in a balanced, lightweight design. Construction starts with a 30 Ton high modulus graphite blank that is paired up with stainless steel guides. Full cork handle ensure comfort and durability. The Venturi series gives excellent performance at a great value.

- 30 Ton graphite blank for a lightweight and balanced design
- Full cork handle for durability
- DPS reel seat
- Stainless steel guides
- Extensive range of Scandinavian style of actions

LURES

Reflex Red

The Abu Garcia Reflex Spinner is an all time best seller since 1951. Reflex has a simple design that's easy to use and catches fish of all species. The streamlined Reflex casts long and accurately, even against the wind. And there's a strong possibility that any retrieve will experience the strike of a bass, trout, pike, perch and chub or just about any freshwater/saltwater fish imaginable. It's an all-purpose lure that consistently catches fish. The Reflex Red is the most classic one and holds 14 colours.

Droppen

When fishing small streams and rivers for freshwater predators light and balanced tackle is often required. The Droppen fits into this category easily - it's low centre of gravity makes casting around small and intimate venues simple.

Freshwater predators such as perch, chub, pike and trout find its action irresistible.

Droppen 4 - 6 g

Hi-Lo Sinking and Floating

The Hi-Lo is unique amongst wobblers. With its adjustable lip vane you can decide the depth you wish to fish. Hi-Lo attracts predators like pike and zander, whilst the smaller sizes are perfect when hunting specimen perch.

Svartzonker Series

It's getting more and more popular to fish for the big predators like pike, zander and perch.

This is why we decided to start to work together with the well-known and skilled lure builder Claes "Svartzonker" Claessens.

He is a dedicated angler and has fished ever since he was a kid. Since many years back he has designed and developed his own predator lures, that he felt was missing on the market.

His lures have during the past years had repeated great success in several tournaments. It's truly a pike magnet and they have several 10 kilo pikes on its conscience. This is why many anglers have these lures on their top ten list.

The result of Claes and ABU's collaboration is a series of really attractive lures, for those who just cannot resist a fight with a reluctant predator fish. Congratulations to your choice to buy a Svartzonker lure. And many thanks to Claes for your Svartzonker knowledge.

Svartzonker McBeast KIT

NEW

The McBeast soft bait is perfect for catch big predators in deep water. It's made of soft, durable and high quality rubber. It's a perfect match to the Abu Garcia stingers with shallow screw or to be used with regular jig heads. McBeast swims at slightest movement and easily targets bigger predators with its wide rolling swimming action. Can be used separately or as a replacement jig for the McBeast kit.

Svartzonker McMio Junior

McMio Tail Junior attracts predators with its smooth rolling action. It has become many tournament fishermen's favourite. This is because it's easy to fish, long casting and catches lot of fish. The weight is 22g. The body length is 6 cm and with the tail it's 20 cm in total. It does not require any special equipment, you can use your regular spinning gear. McMio Tail Junior works well with both soft and stiff leader. It's slow sinking and fishes at depths between 0,5 - 1 m depending on how fast it's retrieved.

Svartzonker McMio Beast

Big McMio attracts predators with its smooth rolling action. It has become many tournament fishermen's favourite. This is because it's easy to fish, long casting and catches a lot of fish. It does not require any special equipment, you can use your regular spinning gear. Big Beast works well with both soft and stiff leader. Big McMio has Svartzonkers unique rigging system for perfect hook set and you do not need to change jig tail as often.
